

### Lieferumfang

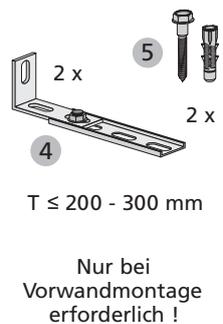

Art.-Nr. Z 240

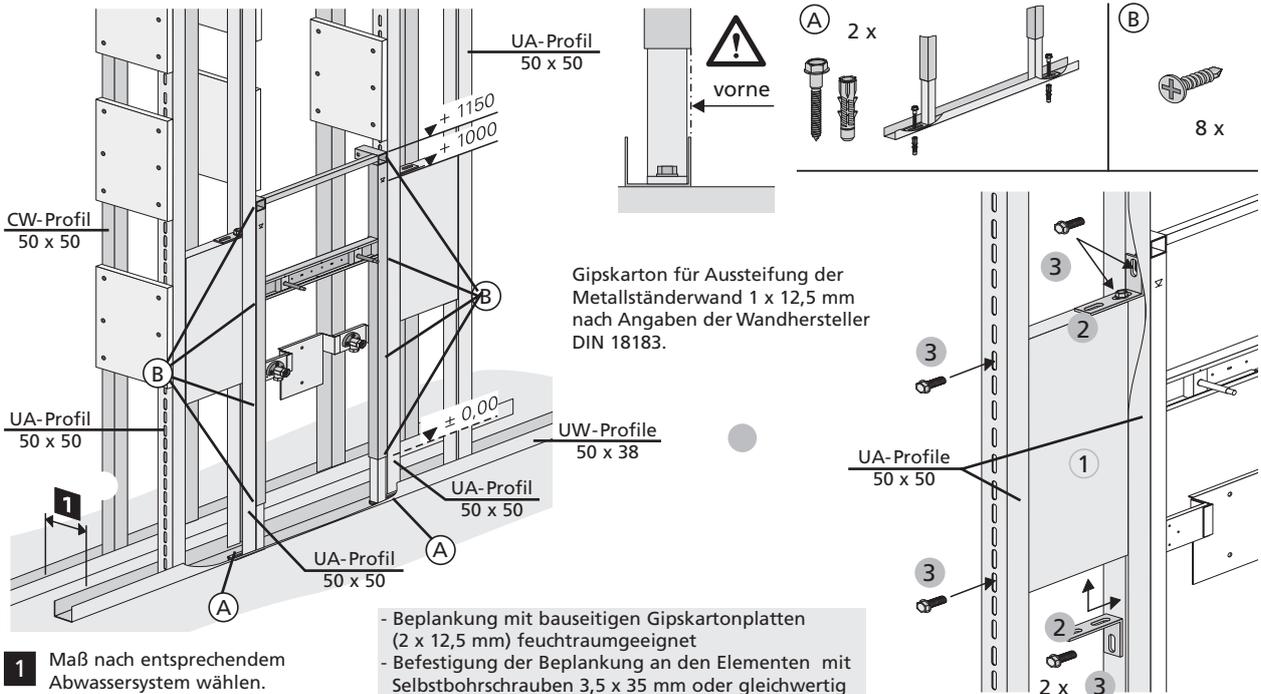

### Maße und Trinkwasseranschlüsse

Art.-Nr. Z 303

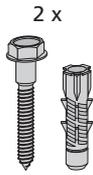

### 1. Montage in Metallständerwand

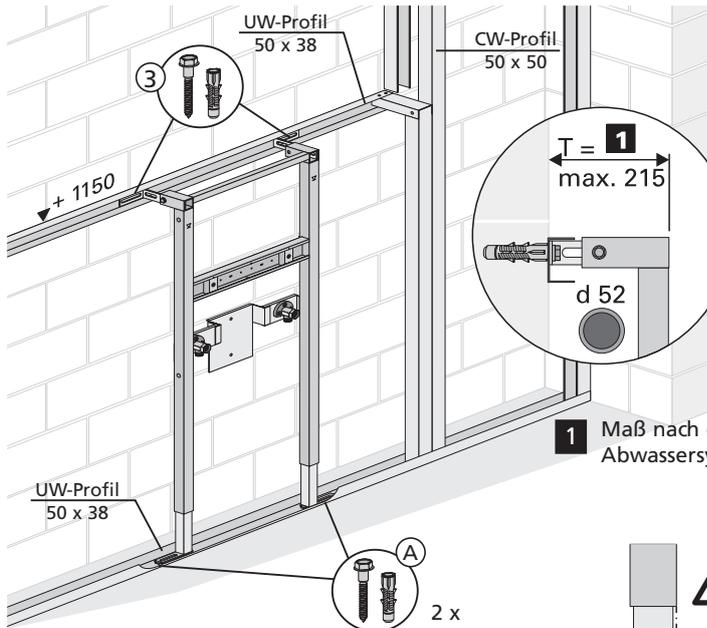

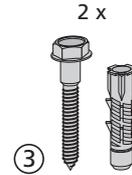

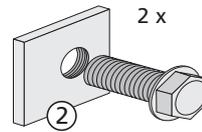

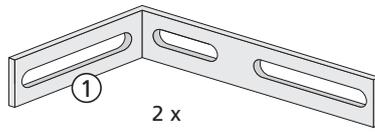

2. Vorwandssystem mit Leichtbauprofilen

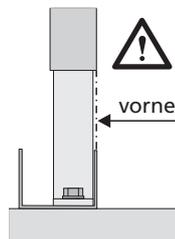

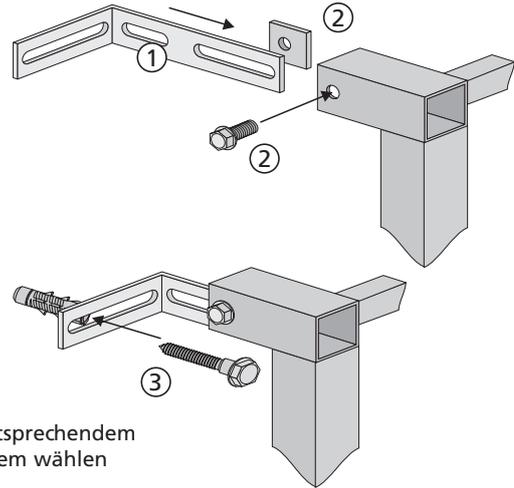

(A)

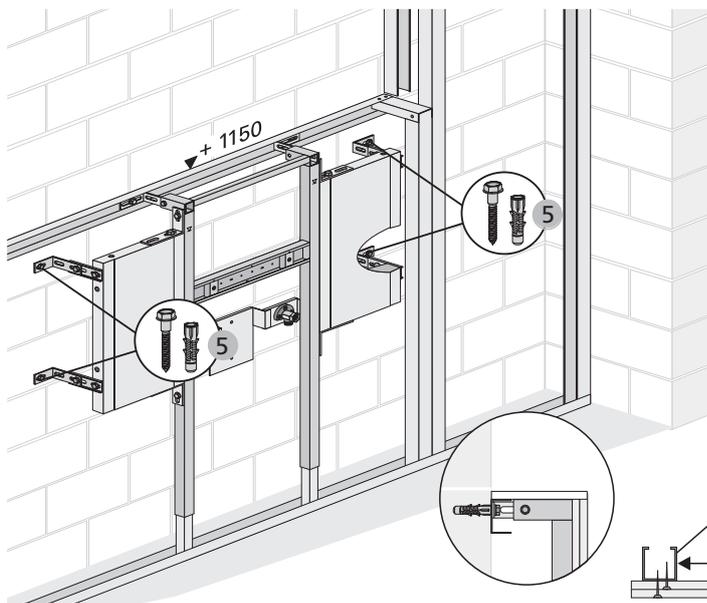

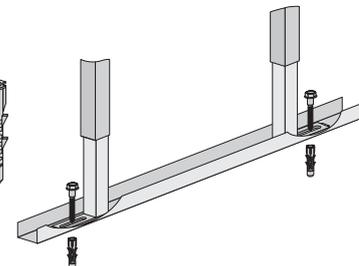

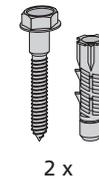

Art.-Nr. Z 200

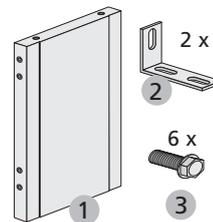

1 Maß nach entsprechendem Abwassersystem wählen

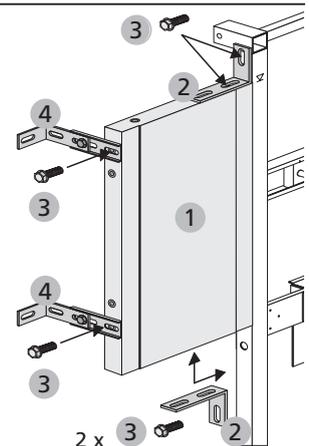

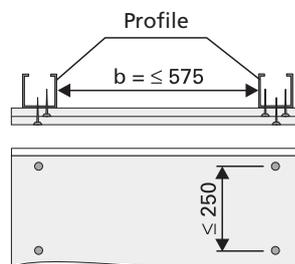

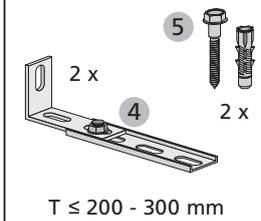

(A)

Art.-Nr. Z 240

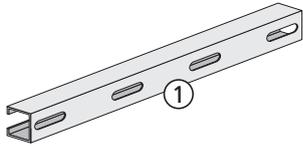

Art.-Nr. Z 303

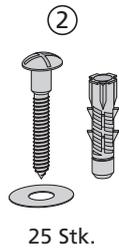

- Beplankung mit bauseitigen Gipskartonplatten (2 x 12,5 mm) feuchtraumgeeignet
- Befestigung der Beplankung an den Elementen mit Selbstbohrschrauben 3,5 x 35 mm oder gleichwertig

3. Vorwandssystem mit M-TEC-Profilschiene

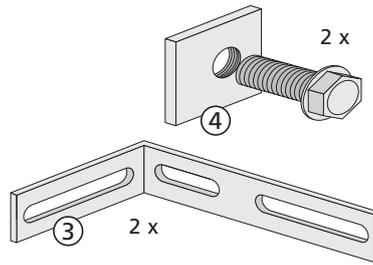

Art.-Nr. PFS 1 (1 Stk.)  
 Art.-Nr. PFS 6 (6 Stk.)  
 L = 3 m

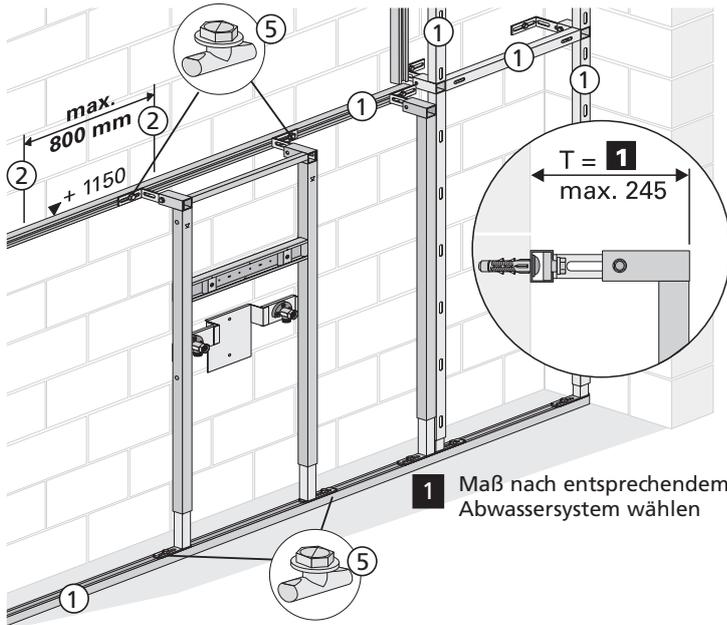

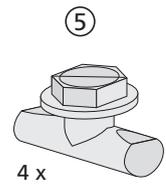

Art.-Nr. Z 225

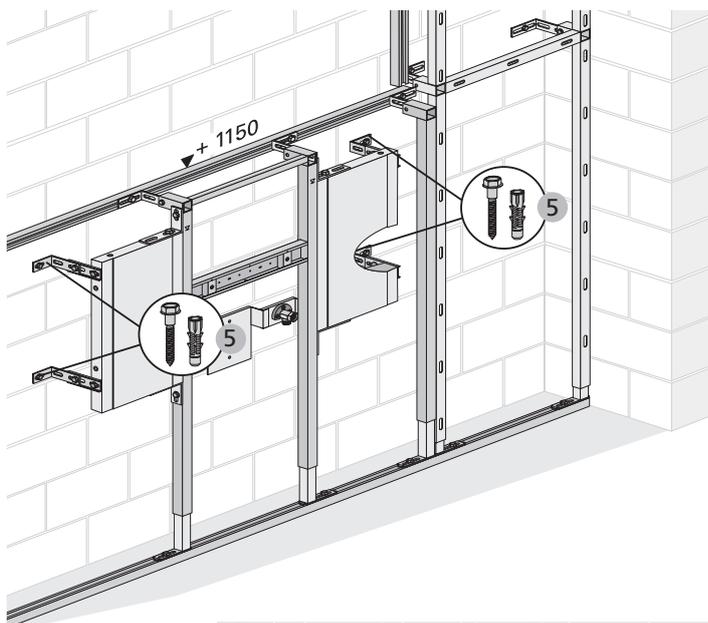

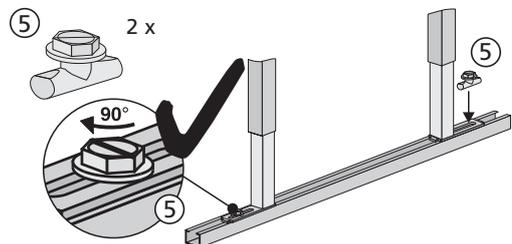

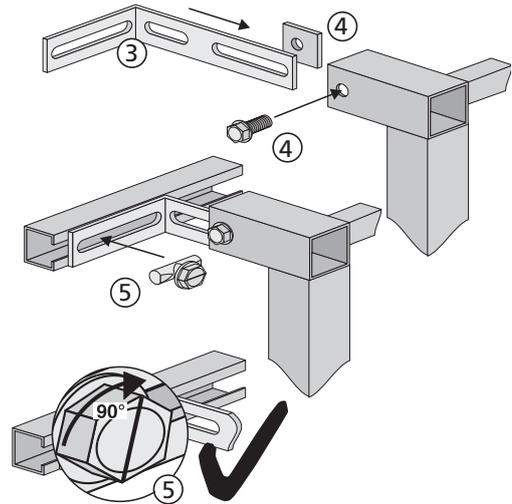

Art.-Nr. Z 200

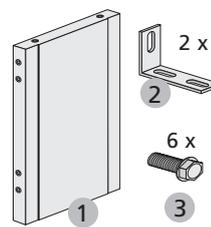

Art.-Nr. Z 204

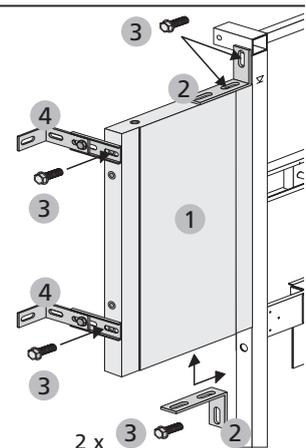

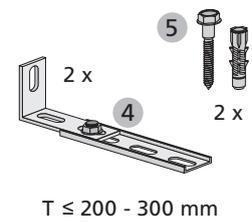

**1** Maß nach entsprechendem Abwassersystem wählen

Art.-Nr. Z 240

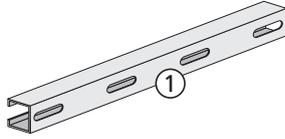

Art.-Nr. Z 303

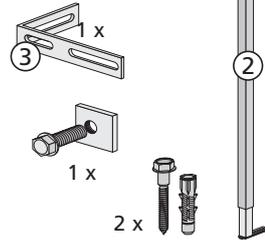

- Beplankung mit bauseitigen Gipskartonplatten (2 x 12,5 mm) feuchtraumgeeignet
- Befestigung der Beplankung an den Elementen mit Selbstbohrschrauben 3,5 x 35 mm oder gleichwertig

## 4. Vorwandssystem mit M-TEC-Profilschiene

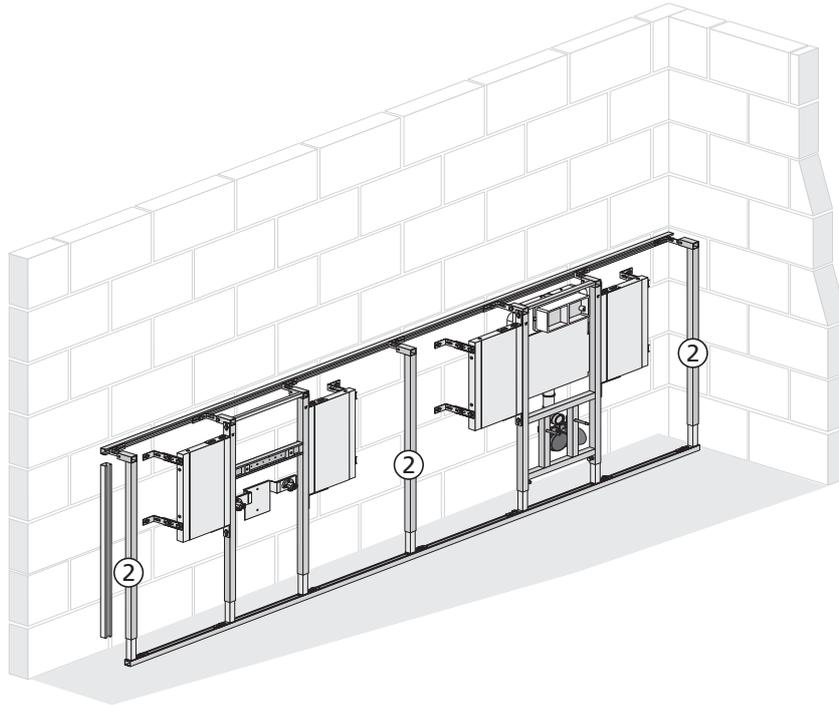

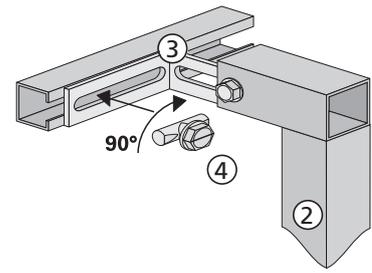

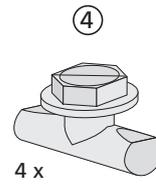

Art.-Nr. PFS 1 (1 Stk.)  
 Art.-Nr. PFS 6 (6 Stk.)  
 L = 3 m

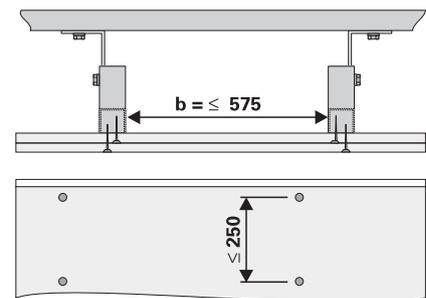

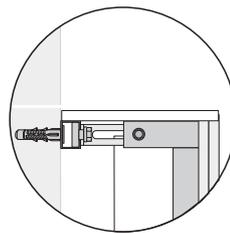

Art.-Nr. STE 1  
 1100 - 1300

Art.-Nr. Z 204

- Beplankung mit bauseitigen Gipskartonplatten (2 x 12,5 oder 1 x 18 mm) feuchtraumgeeignet
- Befestigung der Beplankung an den Elementen mit Selbstbohrschrauben 3,5 x 35 mm oder gleichwertig

Technische Änderungen vorbehalten. Die Montage und Installation zu angrenzenden Gewerken muss nach den anerkannten Regeln der Technik und gültigen DIN-Normen durchgeführt werden. Die Vorgaben der Planungsanleitungen sind zu beachten.
